- Supported HRMS setup with employee data, role configuration, and attendance testing.
- Performed **UAT testing, bug fixing, and deployment support** for live client projects.
- Collaborated with developers and consultants on **client-based ERP requirements and revisions**.

PYTHON DEVELOPER INTERN   APRIL 2023 – APRIL 2024
RIGHT SOFT OPTIONS, KOCHI

- Worked on backend logic using Python and Django.
- Collaborated in team projects and client-side scripting tasks.
- Participated in debugging and REST API integration.

PROJECTS

INCUBATEX   DURATION: 1 MONTH
Description:

Developed a mobile application using Flutter for entrepreneurs under the business incubator at our college. The app helps users track and analyze key aspects of their startup journey, including growth metrics, milestones, and performance reports. It provides real-time insights to monitor progress and supports better decision-making for business development.

GitHub Link: https://github.com/abhishekalangad/IncubateX

LUMOS – LEARNING - APP   DURATION: 2 MONTHS
Description:

Lumos Learning App is an inclusive educational tool designed to support students with disabilities in learning the English alphabet. This application creates an engaging and interactive learning environment for all users, regardless of their physical, sensory, or cognitive abilities.
